defence

presents

UC Berkeley professor Dr. Tyrone Hayes will share his experience researching endocrine-disrupting chemicals and how they can affect human health and the environment.

Learn about the challenges he faced when he tried to share his findings, and how this ties to contemporary debates surrounding the relationship between science and industry.

When

Monday, November 10th

Time

**Doors open at 6pm
Event starts at 7pm**

Where

**Northrop Fry Building, Rm 003
73 Queen's Park Crescent East
Victoria College
University of Toronto**

Admission

Free

SPACE IS LIMITED
